Education

2025 Present. BSc in Computer Science and Engineering At United International University (**UIU**) Dhaka – Bangladesh
Status: Second-year student
CGPA: 2.70/4.00

2022 HSC.
R.K.B.K Horischandra Collaget Institution Paikgacha – Khulna
GPA: 5.00/5.00

2020 Dakhil.
Mothbati G.G.P.G Dakhil Madrasah Paikgacha – Khulna
GPA: 4.00/5.00

About Me

I'm a dedicated Computer Science and Engineering student at United International University, with a knack for creating user-friendly mobile applications using Flutter. I've worked on projects like a Focus Bondh, a CGPA calculator, and a university search platform, which have really sharpened my problem-solving skills and sparked my creativity. I'm excited about the opportunity to join a talented team as an intern or junior developer, where I can keep learning, share my ideas, and help make a real impact.

Experience

Bangladesh University Search Website (Ongoing) : Currently developing an all-in-one university web platform that centralizes detailed information about all includes admission application details, exam dates, tuition costs, and other essential data, making the admission process easier and more transparent for students.

Newspaper App (Ongoing) : Currently developing a news platform with a dedicated section designed to feature only positive and constructive news, providing users with an uplifting reading experience.

Focus Bondhu App By Flutter(Complete) : Developed a productivity app in Flutter that tracks study time, provides reminders, and assists users in managing their reading and writing sessions more effectively.

Hospital Records Management App (Idea) : Conceptualizing a centralized hospital application for Bangladesh to improve doctor-patient communication. The goal of this app is to cut out the need for patients to repeatedly share their medical history and undergo unnecessary tests, ultimately saving precious time for everyone involved.

UIU CGPA Calculator (Idea) : Planning a dedicated a CGPA calculator designed specifically for United International University students for accurate and quick grade forecasting.

Technical Skills

- **Programming**:C,C++, Java, Dart, HTML, CSS Flutter, SQL

- **Tools**: VS Code, Git, Xcode, Figma

- **Platforms**: MacOS, Linux.

Interests

- Passionate about developing innovative mobile applications using Flutter and Dart to solve real-world challenges.

- Exploring and implementing efficient algorithms for real-world problem solving.

- Passionate about cycling, combining fitness with exploration.

Hobbies And Aspirations

- Aspire to become an IT company owner.

- Sharpening problem-solving skills through continuous learning.

- Achieving championship in competitions as a student.

Achievements

Upazila Science Olympiad – 2nd Place Achieved 2nd place representing my madrasah at the Upazila level Science Olympiad.

Participation in Science Olympiad: Actively participated in various science olympiads during madrasah studies, demonstrating passion and aptitude for scientific problem-solving.

Extracurricular Activities

Member, Computer Club (UIU) : Actively involved in club initiatives and workshops, fostering collaboration and tech community growth.

Owner, Trivibe Perfume Brand : Founded and manage a perfume business, handling product design, marketing, and sales operations.

Certifications

2025. Flutter and Dart: Developing iOS, Android, and Mobile Apps – Coursera

2025 SQL for Beginners -Udemy
